I am seeking a career opportunity that will challenge me, bring to me to new heights and test my limits, though also allow me to be close to my family and friends. I am currently the Team Lead and Senior Solution Designer for Cerner's CA PPM implementation. I manage a team of 22 resources along with maintaining proper PMBOK project and portfolio operating procedures within the enterprise tool. Previously I was the lead developer at 3 major KC based agencies. Al of which focused on user experience and persona driven web applications and websites built off of the Wordpress CMS. Including https://kceventhub.org. I also maintain a small business on the side that does development, design and web based hosting solutions.

NOV 2016 - PRESENT
TEAM LEAD - SR. SOLUTION DESIGNER
CERNER CORPERATION

Responsible for technical and functional architecture design requirements and documentation for several of Cerners Global Enterprise Applications. Applying usability best practices and industry standards to aid all business units within Cerner to achieve their goals. I currently lead the implementation of Cerners project and portfolio management application and work directly with our various business units to define how Cerner sales and staffs their projects across the enterprise. I also manage an agile team of developers and designers with a focus of continuous project delivery. This also includes overseeing our dev-ops model and implementing department wide initiatives such as a drive and focus on CI/CD best practices.

NOV 2015 - Nov -2016
TECHNICAL CREATIVE DIRECTOR
BIGSHOT INBOUND

Responsible for overseeing both the creative and technical departments. I implemented processes to not only standardize our project time lines but maximize efficiencies by introducing agile methodologies. I brought the company from using 3rd party templates to creating custom designs and development, using UXD best practices, increasing production value and overall profits. Certified in the inbound methodology, and applying it to all projects while using industry best practices to increase lead generation for our clients. Development, design, user experience and system administration all fall under my duties as well as client engagements and overseeing a staff of 4 engineers and designers. Primary CSM of choice was Wordpress. I originally started as a lead developer and was promoted 6 months into the job.

DEC 2013 - NOV 2015
LEAD DEV & SYSTEM ADMIN
BROCKTON CREATIVE GROUP OF KINETIC SUPPLY.

Concurrently managed several large scale development projects. Helped define client strategy for entire project life cycles. Architected company wide technology and data strategy. Primary system administrator for over 50 clients, on LAMP adjusted servers and meeting PCI Compliance as well as server side security policies. Facilitate bi-weekly code workshops, helping team members develop their skills. Lead full-stack developer (front/back/database/ UI/UX) for all projects. Helped mentor and on-board new team members. Primary CSM of choice was Wordpress.

NOV 2012 - DEC 2013
SR. FRONT END DEVELOPER
VINSOLUTIONS
AUTO TRADER GROUP

Collaborated with a large team and corporate presence. Designed, developed and maintained several hundred websites. I was placed on tier one accounts such as Lexus OEM and Kia Brands. Facilitated development aid in transitioning sites from our in-house CSM to a 3rd party platform: Kintico.

APR 2010 - NOV 2012
CHIEF DESIGNER
MARCY DESIGN GROUP INC.

Responsible for a wide array of projects, from web layout to brochure design to ad campaign creation. Collaborated with many different industries, from associations, non-profits and small business. Won over 5 international (Platinum and Gold) Awards Including Marcom and Hermes.

APR 2008 - PRESENT
OWNER
PIXELURBIA LLC

Handle all of my small business needs, including acquiring/conducting business. I have kept a majority of my clients over the years, and still do work for them. I also developed and operate a web based application built off of Wordpress that goes by the name of TankTracker. (http:///tanktracker.app)
